

## Scheme of work by chapter

In many schools, terms will probably not be an even numbers of weeks and may not be 9 weeks long. Most school years, however, have weeks when little progress is made due to school activities or examinations. A 27-week year is therefore a reflection of the usable weeks for many teachers and classes.

This plan assumes that HL and SL classes run together. It is suggested that SL students should be scheduled to attend all classes but should be 'let off' when lesson content does not concern them.

Some teachers may like to use the worksheets as revision exercises in Term 5. Others may prefer to assign content learning regularly and use the worksheets as regular tests or as a reinforcement exercise. When completed, the worksheets provide a useful revision summary of the course.
