

Welcome to your Enhanced Online student book of MYP Mathematics 3.

Here you will find trusted digital support for MYP Mathematics. Students can improve performance with end of unit quizzes. We have also provided support documents for teachers, in the form of unit planners and correlations to US state standards.

Release 1 notes (February 2021)

In this first release, you will find:

- Teacher resource: unit planning grids
Teaching resource: comprehensive correlations to the Common Core as well as state standards for Florida, Georgia, California, and Virginia
- Student resource: additional practice quizzes for units 1, 3, 5-7

To access your digital resources, look out for these icons in the digital book*:

Notes on future releases

Further digital releases will be published in March 2021. These will include:

- Additional practice quiz for units 2 and 4
- Texas correlation grid

**To access the unit planners and the correlations, you will need to click the green dots icon on the contents page. To access the end of unit quizzes, the icon is the 'launch additional digital resources' panel on the unit review pages.*
